

Report of the ISAR EISE Endoscopy Training course held on January , 2018

The sixth ISAR EISE Endoscopy Training course on fertility enhancing endoscopic surgery was held on 13-14 January 2018 at the EISE, Mahim, Mumbai. Of the 12 registered candidates, 9 delegates attended

Day 1 comprised of didactic sessions and pelvitrainer exercises. Dr S Krishnakumar, course director, Mumbai welcomed the delegates and thanked the ISAR president Dr Duru Shah for initiating this course, which is well appreciated by the attendees. Dr S Krishnakumar introduced to the delegates, the concept of the 2 day course stressing on the importance of evidence based way of Fertility Enhancing Endoscopic Surgery and started with basics of Laparoscopic and Hysteroscopic Surgery. This was followed by lectures, based on the new guidelines for discussion provided by Dr Duru Shah, President ISAR, with an emphasis on surgical videos followed by interactive discussion. He also introduced Dr Arun Rathi, faculty from Akola, who also took part of the lectures. This was followed by pelvitrainer exercises and lastly lectures on hysteroscopic surgery.

Day 2 comprised of hysteroscopy simulator exercises on artificial uterine models provided by PeeBee Surgicals. This was followed by wet lab training on anaesthetised pigs where the candidates practiced surgical port entry, dissection using various energy sources and suturing.

The co faculty assisting Dr S Krishnakumar and Dr Rathi , for the course was, Dr Anurag Bhate, on Sunday . At the conclusion, the delegates were given, standard guidelines and protocols on various aspects of FEES in a pendrive. The training was profusely appreciated by all the trainees.
