

REPORT- A Webinar on Video Lectures – Minimally invasive surgery in Infertility Management as part of the program "**Infertility Management Simplified**" The Indian Society for Assisted Reproduction (**ISAR**) and Breach Candy Hospital jointly conducted an International Webinar on 13th on December 2017. The Webinar was held between 07:30pm to 10:15pm at Breach Candy Hospital, Mumbai - which was the main hub. Ten cities were connected live with the Mumbai hub. This Webinar was supported by an educational grant from Torrent.

This webinar was unique as all are experts delivered their lectures in form of videos for a more practical approach.

The Webinar began with a presentation by **Dr. Pranay Shah** on Laparoscopic Management of ectopic pregnancy and hydrosalpinx. This was followed by an interesting presentation by **Dr. Sunita Tandulwadkar** on Laparoscopic management of fibroids and Adenomyosis. The topic on Ovarian cyst and Endometriosis was covered by **Dr. Krishnakumar** in an excellent manner. **Dr. Nozer Sheriar** delivered an impressive lecture on hysteroscopy. **Dr. Ameet Patki** was the chair for the session.

After this impactful video lectures, the faculties engaged in a round of Q&As involving all the webcast locations which was moderated by Dr Ameet Patki. A total of **282** delegates participated in the Webinar from the 10 cities and **484** doctors viewed it online.

The entire program has been video graphed, edited and archived on the ISAR website
